Those who've already attended the Graduate School of Banking or GSB Bank Technology Management School have the option to bypass the business of banking curriculum.

This innovative one-week school is designed by, and especially for, information security officers in the financial industry. It features in-depth labs that will allow you to work with learned concepts to gain skills and tools you can put to use immediately at your bank.

Whether you're a veteran Information Security Officer or new to the IT security field, this powerful program will give you the skills and knowledge to effectively secure your bank's and your customers' most sensitive information.

The program's curriculum features two core areas of study—the business of banking and offensive and defensive IT security measures.

IT SECURITY CURRICULUM

- Security Breaches, Laws and Regulations
- Information Security Management
- Digital Forensics
